The RV Hotel List

(last updated **2/2/2018**)

This place lists places where you can stay for free while traveling the world in your Van's RV. If you're just passing through, intend to overnight, and would rather spend your money on avgas instead of a hotel, please feel free to give someone on this list a call - as they've offered up their homes to traveling RVators. If you would like to add your name, just let me know. (vansairforce `at` gmail `dot` com) ✈

The wife and I would like to extend an invitation to the RV community. We live in Birmingham Alabama near the Bessemer airport, KEKY. We have a playroom/bedroom in the basement with a full bath for guests and welcome any RVer for a free night's stay ... okay, free is not quite true - we'd like at short ride around the pattern! South St. Paul (KSGS) -- Nothing fancy with the guest room (we'll move the boxes that have been sitting in there since my mother in law sold her house and gave away some furnishings) but the house (in nearby Woodbury) is quiet (just us two and a friendly dog) and we could probably find a car for you to use to explore the Twin Cities and give you a key to the house so you can come and go as you like. The lower level of the typical-suburban home has a bathroom that's yours, and a family room to afford you some

measure of privacy if you wish. A nice backyard deck is a great spot for morning coffee and flight planning. An RV-12 is being built in the hangar but it doesn't yet prevent us from squeezing in an RV if need be. Non-smokers. This is a good stop for the cross-country folks or people going to Oshkosh who want to get up refreshed for a short hop over to AirVenture. Lots of RVers on the field who could be convinced to let you by them dinner. Email is the best way to reach me. bcollinsmn@gmail.com (Submitted April 2017)

573-336-5787 office 573-336-5554 home. I finished my RV-9A (N5787B) in September and am really enjoying flying it. Looking forward to utilizing your "hotel" listings as I travel. I live near Rolla, Missouri and have a nice home on the Gasconade River with 1200' airstrip / hanger and would love to have other RVers stop by. Extra bedrooms, pancake breakfast for all guests, lovely valley view and wonderful peaceful 300 acres to enjoy. Call ahead because airstrip is hard to find without directions. Also, can pick you up at nearby Fort Leonard Wood or Rolla Downtown airports if 1200' is too risky for you. Cheapest fuel around is in nearby Cuba, MO. We're centrally located between St. Louis and Springfield right off I-44. ([map](#))
